Price to be determined

WE PRODUCE STRONG AND MULTICOLOURED SEAT PROTECTORS FOR CANYONING

Extensive offer

We offer a wide range of practical and personalized seat protector for any harness size. If there is nothing in our offer that meets your requirements then we would be delighted to see your project and carry it out for you.

Wide range of colors

You can find seat protector in many shapes and colors. Due to our extensive colour range, you can choose your favorite color, the one matching your company's branding or the color of neoprene. Moreover, it is a good idea to divide the canyoning groups by the color of seat protectors.

Competitive pricing

Due to our competitive pricing policy and rebate management (5% from listed prices for more than 30 pcs., whereas 8% for more than 50 pcs.), we deliver the best value proposition for Your company on the EU market.

Quality and durability of our products...

Seat protector is made out of a very strong and durable PVC material, available in two basis weights of 650 g/m² or 900 g/m². In addition, you can also order seat protector with special reinforcement of the legs area with the PES material for additional abrasion resistance, resulting in heavily used protectors lasting longer. And, above all, it prevents abrasion better and as a result provides better protection for both the neoprene foam and the harness.

is suitable for every adventure

Apart from that we offer seat protector with sewn-in webbings, with adjustable length at the waist and in the legs. They are not intended for the canyoning harness. They will work as protectors for neoprene suitable for those canyoning trips where rope is unnecessary, i.e. only for jumps and slides. In addition, they are also available in child's size. Color of the webbing can also be adjusted on Your request.

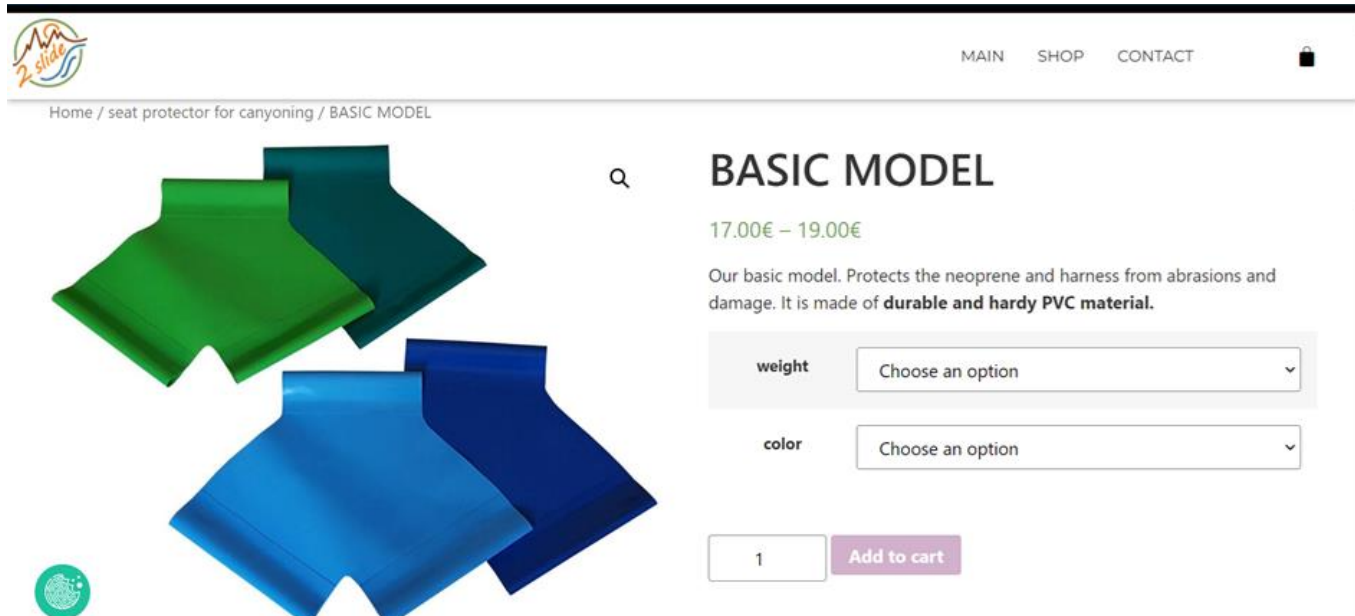

Reliable company

2 slide is registered in the EU economic area and meets the highest european standards regarding not only material quality and the production process but also in terms of customer service, return policy and warranty.

Visit our online store and see how easy it is to order
the SEAT PROTECTORS FOR CANYONING you need.

The screenshot shows the product page for 'BASIC MODEL' seat protectors. On the left, there are three images of the seat protectors in green, blue, and dark blue. The right side of the page features the product title 'BASIC MODEL', a price range of '17.00€ – 19.00€', and a description: 'Our basic model. Protects the neoprene and harness from abrasions and damage. It is made of **durable and hardy PVC material.**' Below the description are two dropdown menus for 'weight' and 'color', both set to 'Choose an option'. At the bottom right, there is a quantity selector set to '1' and an 'Add to cart' button. The top navigation bar includes 'MAIN', 'SHOP', and 'CONTACT' links, and a shopping cart icon. The breadcrumb trail reads 'Home / seat protector for canyoning / BASIC MODEL'.
